Key Client Experience

Qualitrain Ltd.

2014 to present date.

Involved in the design of assessment materials for business improvement at level 2 and level 3. Responsible for the assessment and evaluation of candidates in different industries from Rail services, train building, steel stockists and many other manufacturing areas. Responsible for holding professional discussions and interviews with candidates for assessment of qualifications.

Eurocell Profiles Ltd

Oct 2007 – to 2014 Site manager
Eurocell is now the largest profile extruding company in the UK. My position as site manager is to maintain the running of the injection moulding, foil and the composite door departments as well as the stores function within the departments.

Cotes Park facility is one of the largest within Eurocell. The site currently employs around 100 staff working on a continental shift pattern.

Arena ZME Ltd
2005 – 2007
Quality Manager.

Arena ZME is a high class injection medical moulding company, producing class1 medical human implants. The company also

runs one of the UK's largest class 7 (10,000) clean room facility with ten moulding machines running into the clean room area. There are also five larger 370T machines on the outside of the clean room. All the 370t presses had robots fitted.

Duties include: The responsibility of the companies ISO 9001 and EN46001 quality systems. Ensuring the routine development of the systems and spear heading the quality drive of the company through internal audits on all departments. Directly responsible to all customer enquiries both on site and off site visits. The role required excellent communication skills at all levels both
